POLICY D. 1 Non-Instructional/Business Operations/Community Relations

SUBJECT: FIXED ASSET POLICY

Purpose

The School District recognizes the need to implement the required accounting and financial reporting standards promulgated by the Governmental Accounting Standards Board (GASB). GASB Statement 34 was issued to provide new and additional information to the diverse users of the District's financial statements.

A fixed asset or capital asset is defined as a physical commodity (i.e. land, buildings, machinery, vehicles, equipment, and furnishings) having an estimated period of usefulness in excess of one year and an estimated value of at least \$1,000.

The School District is committed to fostering proper management of the District's assets.

Guidelines

1. The disposal of all fixed assets shall be recorded and approved for disposition by the Board.
2. Obsolete or surplus items shall be kept to the lowest levels.
3. Building Administrators will be responsible for safeguarding all fixed assets and will ensure that none are removed from school property unless authorized by the Board.
4. Employees are not permitted to use the District's assets for personal activities.
5. Generally, capital assets should be considered for disposal when they can be identified with one or more of the following:
 - (a) Obsolete: An asset which is no longer suitable for its original purpose and which is incapable of being modified to achieve an acceptable level of operation, with little or no resale value.
 - (b) Not Repairable: An asset which cannot be repaired or restored to an acceptable level of operation, or where the cost of repair in relation to replacement of cost is not economically justifiable.
 - (c) Surplus: An asset may become surplus if it is in excess of estimated requirements or if the purpose for which it was originally acquired no longer exists.

Recording of Fixed Assets

All assets will be recorded on an ongoing basis in a Fixed Asset Register. The Register will record an identifying number, a description of the asset, and the original cost of the asset.

All items that are listed as fixed assets shall be tagged and identified in the District's Register of Assets. All other assets shall be tagged if such assets may

be conducive to theft and have a value of at least \$100, (e.g., a digital camera costing \$400) and shall be included in the register.

Physical Inventory of Fixed Assets

Inventories are physical reviews and confirmations of the District's assets. A periodic evaluation of the inventory will ensure the integrity of the amounts of the District's financial statements, maintain current insurance valuations, and assist in loss detection.

Inventories shall be conducted as follows:

- land and buildings – every 5 years
- machinery, equipment, vehicles, furnishings – every 5 years
- all other fixed assets – annually

Any assets not accounted for must be immediately brought to the attention of the Board.

POLICY D. 2 Non-Instructional/Business Operations/Community Relations

SUBJECT: DISPOSAL OF DISTRICT PROPERTY

Building Principals and Supervisors are responsible for identifying obsolete or surplus equipment and supplies within their area(s) of responsibility. Such equipment, supplies, or materials shall be sold through bid procedures, if possible, for the highest price. The Business Manager shall be authorized to dispose of obsolete or surplus equipment and supplies in the following manner:

1. reassign the items, as needed, to other locations within the school district;
2. centralize the storage of items of potential usefulness; or
3. discard or sell as surplus those items determined to be of no further use or worthless.

Following approval by the Board of Education, items may be sold in the following manner:

1. offer to sell the items to local municipalities or local non-profit organizations;
2. sell items at a public sale or public auction. In the event of a public auction or sale, notice of availability of such equipment, supplies and materials and requests for bids shall be disseminated through announcements in local newspapers or website and such other appropriate means. Items shall be offered for sale to the general public, except that no Board member, Officer or School District Employee, or anyone in the immediate family of the above-listed persons, shall be eligible to purchase the equipment, supplies or materials.
3. give such items to a municipality or municipal corporation; and
4. sell remaining items as scrap for the best price or discard in the safest, least expensive manner.
5. all items offered for sale or donated according to this policy shall be sold "as is" and potential buyers shall be notified that all sales and gifts of District property are "as is".
6. all items approved for sale by the Board of Education should include an upset price approved by the Board, which is the lowest price that the Board of Education will accept for a particular item.

POLICY D. 3 Non-Instructional/Business Operations/Community Relations

SUBJECT: CREDIT CARD POLICY

The Comptroller of the State of New York has expressed the opinion that a municipality may not use a multi-purpose credit card (such as Visa) issued by one of the major commercial credit card firms. The Comptroller's primary concern is that the use of credit cards of this type involves the use of credit of a third party. The Comptroller has expressed approval of the use of gasoline company credit cards to provide gasoline and oil to a municipally owned vehicle as long as such cards are not used for private vehicles. The Comptroller has, however, indicated that a multi-purpose credit card may be used if the credit card company meets certain conditions relating to the audit of the bills produced by the credit card company.

A multi-purpose credit card may be issued in the name of the School District for use by individuals in the following position: Deputy Treasurer . Such credit card shall only be used for expenses which are directly related to the School District. No amount greater than \$2,000 shall be charged for any expense. An original receipt for such expense must be delivered to the Business Office within 14 calendar days of incurring such expense. Any claim submitted by the credit card company shall be paid within a reasonable time to avoid occurring service or interest charges.

The School District's accountant shall review the manner and method of having the credit card company comply with the form and audit of claims requirements of Education Law (currently §1724).

POLICY D. 9 Non-Instructional/Business Operations/Community Relations

SUBJECT: INDEPENDENT EDUCATIONAL EVALUATION INTRODUCTION

The School District has established the following policy on independent educational evaluations for children with disabilities or for children who are referred to the Committee on Special Education because they are suspected of having an educational disability and may, therefore, be in need of special education.

Parents of children with disabilities have the right under Federal and State laws and regulations to obtain an independent educational evaluation at public expense under certain conditions. (Commissioner of Education Regulations, Part 200.5(a)(1)(vi); Federal Regulations 34 CFR 300.503). A parent does not have the right to an independent evaluation if the School District has not conducted and completed its evaluation of the child. In addition, the State Education Department Publication *A Parent's Guide to Special Education: Your Child's Right to an Education in New York State*, discusses independent evaluation requirements. This document is available from the District upon request.

The School District has adopted this policy in order to explain the rights of parents and the responsibilities of the School District with regard to independent educational evaluations and to avoid any misunderstandings.

DEFINED

An independent educational evaluation means an evaluation conducted by a person who is not employed by the school district responsible for the education of the child. Such an evaluation is for the purpose of determining a child's eligibility for special education or related services, and for planning to meet the child's educational needs.

If the parent disagrees with the evaluation conducted by the School District, the parent has a right to request an independent evaluation at public expense.

The District may, in turn, request the parent to specify the areas of disagreement with the evaluation to show that its evaluation is appropriate, and may initiate an impartial formal hearing if it believes its evaluation is appropriate and does not intend to pay for the evaluation requested by the parent.

PUBLIC EXPENSE

Public expense means that the School District either pays for the cost of the independent educational evaluation or ensures that the evaluation is otherwise provided at no cost to the parent provided that the cost does not exceed the monetary amount established in this policy by the District. The amounts set forth in this policy are also those amounts which the District will pay when scheduling its own outside evaluations. Requests for an exception to the rates set forth should be forwarded in writing to the Chairperson of the Committee on Special Education (CSE) or Chairperson on the Committee on Preschool Special Education (CPSE).

RESPONSIBILITIES

When an independent educational evaluation is requested and approved by the School District and an evaluator is selected by the parent from the attached list, it becomes the responsibility of the person chosen to contact the School District to set forth in writing the services to be performed, the cost involved, the method of payment, dates of classroom visitations and discussions with school staff, and when a written report will be submitted.

The School District has the responsibility to designate a geographic area within which the parents would be limited in their search for an independent educational evaluator. The School District will not consider at public expense independent educational evaluators outside the county in which it is located or any adjoining county. Requests for an exception to the geographic area set forth should be forwarded in writing to the Chairperson of the CSE or CPSE as appropriate.

FURTHER INFORMATION

The School District has developed a policy on independent educational evaluations in order to avoid any misunderstanding and to ensure that the District is meeting its responsibility to provide an independent educational evaluation. Parents can obtain further information on independent evaluations by contacting the Chairperson of the CSE or CPSE at the School District, and also the State Education Department by contacting the Office for Special Education Services, requesting to speak to the Regional Associate assigned to this area.

ADMINISTRATIVE PROCEDURES

1. Upon completion of the evaluation conducted by the School District and appropriate notice being given to the parent, the parent is requested but not required to send written notice of a request for an independent evaluation within forty-five (45) calendar days from the date of receipt of the School District's evaluation.
2. The School District will not pay more than \$750 for a comprehensive independent educational evaluation that would meet the requirements under Commissioner's regulations, which may require an individual psychological evaluation, a physical examination, a social history and other suitable examinations and evaluations as may be necessary to ascertain the physical, mental and emotional factors which may contribute to the suspected disability.
3. The School District has established a list of specific rates and qualified professionals in private practice in this county and adjoining counties or employees of other public agencies to whom parents may go to secure an independent educational evaluation. The School District will pay for an evaluation performed by an employee of any other public school district or BOCES within the county or any adjoining county whom the parent chooses to employ as an independent educational evaluator at the then-current hourly rate paid to that licensed or certified individual which the School District would pay were it to request such an evaluation.

4. The School District will pay for an independent educational evaluation or assessment only if conducted by an individual who possesses current license or certification from the New York State Education Department in the area of the evaluation. The School District will permit parents to select an independent educational evaluator who is in the county in which the School District is located or within any adjoining county at the time the parent makes the request, as long as the individual selected by the parent is appropriately certified or licensed by the State of New York.
5. An independent educational evaluation must be conducted in accordance with the federal and State regulations, which require that, at a minimum:
 - (a)** tests and other evaluation materials –
 - (1)** are provided and administered in the child’s native language or other mode of communication, unless it is clearly not feasible to do so;
 - (2)** have been validated for the specific purpose for which they are used; and
 - (3)** are administered by trained personnel in conformance with the instructions provided by their producer.
 - (b)** tests and other evaluation materials include those tailored to assess specific areas of educational need and note merely those that are designed to provide a single general intelligence quotient.
 - (c)** tests are selected and administered so as best to ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child’s aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child’s impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).
7. The School District, upon receiving a request for reimbursement for an independent educational evaluation, will forward an acknowledgement letter to the parent with a copy to the evaluator within ten calendar days after receipt of the request. Any information needed by the School District to reach a decision regarding payment will be set forth in the letter.
8. If denial for reimbursement is indicated, the reason(s) for that denial, as well as the School District’s intention immediately to initiate a hearing regarding such denial, will be forwarded to the parent in writing with a copy also being forwarded to the evaluator. If the District agrees to pay for the evaluation, the parent and the evaluator will be notified by letter.

(A LIST OF THE SPECIFIC MONETARY RATES WHICH THE SCHOOL DISTRICT WILL PAY SHOULD BE ATTACHED. THE DISTRICT MAY ALSO DEVELOP A LIST IDENTIFYING SPECIFIC EVALUATORS IN THE COUNTY AND ADJOINING COUNTIES WITH WHOM THE DISTRICT IS FAMILIAR IN ORDER TO ASSIST PARENTS IN LOCATING APPROPRIATE EVALUATOR.)

The School Board of the Oneonta City School District supports efforts to conserve energy and natural resources while exercising sound financial management.

The implementation of this policy is the joint responsibility of the Board members, administrators, teachers, students and support personnel and its success is based on cooperation at all levels.

The District will maintain accurate records of energy consumption and cost of energy and will provide information to the local media on the goals and progress of the energy conservation program.

Each principal will assist in the implementation of energy management on his/her campus with energy audits being conducted and conservation program outlines being updated. Judicious use of the various energy systems of each campus will be the joint responsibility of each principal and charge custodian to ensure that an efficient posture is maintained on a daily basis.

The Superintendent of Buildings and Grounds will be accountable for compliance at the bus garage and gray barn. The Business Manager will be accountable for the administrative offices.

To ensure the overall success of the energy management program, the following specific areas of emphasis will be adopted:

2. Each building principal will encourage compliance with the Energy Management Program.
3. Within sixty (60) days, administrative Energy Guidelines will be adopted that will be the “rules of the game” in implementing our energy program.

Further, to maintain a safer and healthier learning environment and to complement the energy management program, the District shall develop and implement a preventative maintenance and monitoring plan for its facilities and systems, including HVAC, building envelope, and moisture management.

The School Board of the Oneonta City School District directs the Superintendent and/or his agents to develop short and long range strategies in the areas of facilities management and preventative maintenance.

Labor Law Section 27-a

Student Safety

All staff who are made aware of physical and/or verbal threats to students must immediately report these threats against students in writing to the next level of supervisory authority for prompt action. The immediate supervisor must then inform the Superintendent/designee, including any action taken, after learning of such threats to students.

The District shall disseminate this policy to all employees in order to ensure staff awareness.

Safety and Security of Possessions

Students and other participants in School District programs are discouraged from bringing excessive amounts of money or valuables with them to school.

Hazard Communication Standard

All personnel shall be provided with applicable training to comply with the New York State “Right- to- Know” Law and the Hazard Communication Standard.

The Superintendent/designee shall maintain a current record of the social security numbers of every employee who handles toxic substances.

Rules and regulations will be developed to insure District implementation of this policy which shall include awareness information, employee training and record keeping.

Chemical Hygiene Plan

The Board of Education strongly believes in providing a safe work place for employees in laboratory settings. Since the laboratory exposes employees to potentially unique health and physical hazards, it is necessary to set forth work practices and procedures that protect employees.

The occupational Safety and Health Administration (OSHA) published the final rule of its laboratory standard titled Occupational Exposures to Hazardous Chemicals in Laboratories 1910.1450. The laboratory standard requires a written Chemical Hygiene Plan (CHP) that outlines operating procedures that are designed to assure that safe work practices are in place in all laboratories.

The Superintendent of Schools or his/her designee shall implement the regulations which outline the requirements of the Chemical Hygiene Plan.

The principal shall require written application prior to approval. As an exception to this policy a coach may release a student to the parent/guardian for transportation from an inter-scholastic event upon the receipt of a written request from the parent/guardian.

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice, consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. POLICY D.27

Non-Instructional/Business
Operations

SUBJECT: MEAL CHARGING AND PROHIBITION AGAINST MEAL SHAMING

It is the District's goal to provide students with access to nutritious no- or low-cost meals each school day and to ensure that a student whose parent/guardian has unpaid meal charges is not shamed or treated differently than a student whose parent/guardian does not have unpaid meal charges.

Unpaid meal charges place a large financial burden on the District. The purpose of this policy is to ensure compliance with federal requirements for the USDA Child Nutrition Program and to provide oversight and accountability for the collection of outstanding student meal balances to ensure that the student is not stigmatized, distressed, or embarrassed.

The intent of this policy is to establish procedures to address unpaid meal charges throughout the District in a way that does not stigmatize, distress or embarrass students. The provisions of this policy pertain to regular priced reimbursable school breakfast, lunch and snack meals only. Charging of items outside of the reimbursable meals (a la carte items, adult meals, etc.) is expressly prohibited.

Access to Meals

- a) Free meal benefit eligible students will be allowed to receive a free breakfast and lunch meal of their choice each day. A la carte items or other similar items must be paid/prepaid.
- b) Reduced meal benefit eligible students will be allowed to receive a breakfast of their choice for \$.25 and lunch of their choice for \$.25 each day. A student will be allowed to charge a maximum of 10 meals to their account after the balance reaches zero. The charge meals offered to students will be reimbursable meals available to all students, unless the student's parent or guardian has specifically provided written permission to the District to withhold a meal. A la carte items or other similar items must be paid/prepaid.
- c) Full pay students will pay for meals at the District's published paid meal rate each day. A student will be allowed to charge a maximum of 5 meals to their account after the balance reaches zero. The charge meals offered to students will be reimbursable meals available to all students, unless the student's parent or guardian has specifically provided written permission to the District to withhold a meal. A la carte items or other similar items must be paid/prepaid.

Ongoing Staff Training

- a) Staff will be trained annually and throughout the year as needed on the procedures for managing meal charges using the State Education Department (SED) Webinar or the District's training program.

POLICY D.27

Non-Instructional/Business
Operations

SUBJECT: MEAL CHARGING AND PROHIBITION AGAINST MEAL SHAMING (Cont'd.)

- b) Staff training will include ongoing eligibility certification for free or reduced price meals.

Parent Notification

- a) Parents/guardians will be notified that a student's meal card or account balance is exhausted within 10 days and then every 10 days thereafter.
- b) Parents/guardians will be notified that a student has accrued unpaid meal charges within 10 days of the charge and then every 10 days thereafter.

Parent Outreach

- a) Staff will communicate with parents/guardians with five or more unpaid meal charges to determine eligibility for free or reduced price meals.
- b) Staff will make two documented attempts to reach out to parents/guardians to complete a meal application in addition to the application and instructions provided in the school enrollment packet.
- c) Staff will contact the parent/guardian to offer assistance with completion of meal application to determine if there are other issues within the household causing the student to have insufficient funds, offering any other assistance that is appropriate.

Minimizing Student Distress

- a) Staff will not publicly identify or stigmatize any student in line for a meal or discuss any outstanding meal debt in the presence of any other students.
- b) Students with unpaid meal charges will not be required to wear a wristband or handstamp, or to do chores or other work to pay for meals.
- c) Staff will not throw away a meal after it has been served because of the student's inability to pay for the meal or because of previous unpaid meal charges.
- d) Staff will not take any action directed at a student to collect unpaid meal charges.
- e) Staff will deal directly with parents/guardians regarding unpaid meal charges.

Ongoing Eligibility Certification

- a) Staff will conduct direct certification through the New York Student Identification System (NYSSIS) or using SED Roster Upload at least monthly to maximize free eligibility.

POLICY D.27

Non-Instructional/Business
Operations

SUBJECT: MEAL CHARGING AND PROHIBITION AGAINST MEAL SHAMING (Cont'd.)

- b) Staff will provide parents/guardians with free and reduced price application and instructions at the beginning of each school year in the school enrollment packet.
- c) If the District uses an electronic meal application, it will provide an explanation of the process in the school enrollment packet and instructions on how to request a paper application at no cost.
- d) The District will provide at least two additional free and reduced price applications throughout the school year to families identified as owing meal charges.
- e) The District will use its administrative prerogative to complete an application on a student's behalf judiciously, and only after using exhaustive efforts to obtain a completed application from the student's parent/guardian. The District will complete the application using only available information on family size and income that falls within approvable guidelines.
- f) The District will coordinate with the foster, homeless, migrant, and runaway coordinators at least monthly to certify eligible students.

Prepaid Accounts

Students/Parents/Guardians may pay for meals in advance via myschoolbucks or with a check payable to School Lunch Fund. Further details are available on the District's webpage. Funds should be maintained in accounts to minimize the possibility that a student may be without meal money on any given day. Any remaining funds for a particular student will be carried over to the next school year.

To obtain a refund for a withdrawn or graduating student, a written or e-mailed request for a refund of any money remaining in the student's account must be submitted. Students who are graduating at the end of the year will be given the option to transfer any remaining money to a sibling's account through a written request.

Unclaimed funds must be requested within one school year. Unclaimed funds will then become the property of the District Food Service Program.
