2nd Grade Library Classes Complete Research Projects!

Mrs. Allen's & Mrs. Visnosky's 2nd grade library classes recently completed mammal research projects. Students and their partners used the PebbleGo database to find facts about their chosen mammal, practiced paraphrasing while taking notes on their graphic organizers, then used their graphic organizers to create online presentations complete with text, images, & video using the website Buncee.com. Follow the links on the library webpage or Facebook page to view their excellent work!

Bruce

Zebras research by
Joshua and Luna

KOALAS RESEARCH by
Sun-Ah and Stephen

Giraffes by Aaree and Ethan

Kindergarteners enjoy "Donuts with Dads"!

On the morning of June 1st, Kindergarteners and their dads spent an hour in the library from 8-9am enjoying the annual "Donuts with Dads" event. Kindergartners and their dads enjoyed breakfast, kids gave tours, and they sat and read together. Thanks to all the dads who took time out of their schedule to join us in the library!

What's up? 5th graders were recently introduced to their new OCSD email accounts in preparation for Middle School, and parents received info on how to help them use their accounts wisely. And if you'd like recommended Summer Reading Lists for your kids, follow this link for excellent K-5 choices: <http://haisln.org/reading-lists.html>. That's what's up! See you in the Fall!!!

KINDERGARTENERS & 1ST GRADERS ENJOY THUNDERCAKE!

In May, kindergarten & 1st grade library classes enjoyed Author of the Month Patricia Polacco's story "Thundercake," which retells the adventure she had as a child with her grandmother, an adventure which cured her of her fear of thunderstorms. Using Polacco's recipe provided at the end of the book, we all enjoyed home-made Thundercake afterwards!
