Valleyview Families Invited to Visit Library During Open House!

Valleyview families are invited to the annual Fall Open House from 6:30-7:30 on Tuesday, October 23rd, during which all are encouraged to also visit the library! Parents can see this year's crop of new books on display, as well as the newly upgraded Computer Corner featuring our new state-of-the-art Promethean Board, dry-erase mobile tables, and library Chromebooks. Students can give their parents tours of the library and show them their favorite books, and refreshments will be served!

4th Graders Begin Study of History's 'Tough Cookies'!

In September, 4th grade library classes began a periodic, year-long unit which introduces them to some of history's "Tough Cookies," those who have overcome challenges to improve the world around them. Of course, homemade cookies are served each time we meet another of history's Tough Cookies!

What's up? 3rd grade library classes have been learning to use OPALS, the library's online book catalog. 5th grade classes have been competing in a "5 on 5" research challenge. 2nd graders have been introduced to Caldecott-award winning picture books, and Kindergarten & 1st grade classes have been enjoying books by their first few Authors of the Month. That's what's up!

4th & 5th Grades Learn Online Safety Tips!

Valleyview 4th & 5th grade library classes have been discussing the importance of Online Safety and how to practice being a good Digital Citizen both at school and at home. These invaluable lessons can be reinforced at home by discussing with your child ways in which they can be kind online, be safe online, and be smart online!
